

TEAM LEADER QUALITY CONTROL (M/F/D) / MINŐSÉGELLENŐRZÉSI OSZTÁLY CSAPATVEZETŐ

We are an internationally operating group of companies specializing in the coloring and refining of plastics and are Europe's largest family-owned masterbatch manufacturer. As an independent, profitable company, we want to grow sustainably with a balanced social and ecological approach. We see our employees as an important resource and want to become one of the most sought-after employers. Be part of this vision and grow with us!

**NYIREGYHAZA,
MAGYARORSZÁG**

FULL TIME

IMMEDIATELY

YOUR VERSATILE ROLE:

- Leading, developing, and managing the quality control team, including personnel capacity planning and performance management
- Designing, implementing, and continuously improving quality control processes and standards
- Ensuring the approval and release of raw materials, input materials, and production orders
- Overseeing complaint management, corrective measures, and quality reporting within the group
- Key interface role between quality control, production, supply chain, customer service, and sales
- Supporting production in resolving quality issues and non-conforming batches
- Training, coaching, and developing employees and apprentices in quality control, including international teams
- Managing and ensuring compliance with control plans, documentation, and quality systems
- Leading continuous improvement initiatives and bringing innovative proposals
- Actively promoting a strong culture of quality, safety, and hygiene in the workplace through proactive leadership
- Active participation in cross-functional and group projects

- Taking responsibility, a proactive approach, and the ability to think beyond immediate duties

Your profile:

- High willingness to learn and strong initiative
- Several years of experience in employee development and management
- Completed technical vocational training or university degree (university/technical college) in plastics technology
- Professional experience in coloristics and/or plastics technology is an advantage
- Knowledge of key processing methods in the plastics industry
- Very good knowledge of Hungarian and English at a business level; international experience is an advantage
- Enthusiasm for international and interdisciplinary cooperation

What we offer:

- We offer you a long-term position in a well-established family business as well as a varied and challenging range of tasks with plenty of creative freedom.
- We rely on partnership and teamwork.
- Work in a dynamic team including the option of teleworking and flexitime
- Attractive employee benefits such as free coffee and tea, employee parking, cafeteria benefit, employee events, further training opportunities and company health care possibilities
